Notice of Financial Limitations for Medicare Patients for 2022

Medicare has placed an annual financial threshold on therapy services. There are two separate therapy thresholds which limit the amount of services that will be covered in a calendar year for each Medicare Beneficiary. The calendar year starts on January 1 and ends on December 31. There is an exception process by which Medicare will pay for services beyond the threshold if the services are determined to be medically necessary.

2022 Limitations threshold is as follows:

\$2150 for Physical Therapy and Speech Therapy services combined and \$2150 for Occupational Therapy services. This therapy threshold is based on therapy services provided in non-hospital based clinics, for all providers seen in 2022.

How does the Cap work?

After you pay your yearly deductible for Medicare Part B (Medical Insurance), Medicare pays its share (80%), and you pay your share (20%) of the cost for the therapy services. The Part B deductible is \$233 for 2022. Medicare will pay its share for therapy services until the total amount paid by both you and Medicare reaches either one of the therapy cap limits. Amounts paid by you may include costs like the deductible and coinsurance.

Exceptions Process

You may qualify to get an exception to the therapy cap limits so that Medicare will continue to pay its share for your therapy services after you reach the first therapy cap threshold. Your therapy provider must establish your need for medically reasonable and necessary services, document this in your medical record and indicate on your Medicare claim for services above the therapy cap threshold limit that your therapy services are medically reasonable and necessary.

As part of the exceptions process, there are additional limits or thresholds. If you get outpatient therapy services higher than the second threshold amount, a Medicare contractor may review your medical records to check for medical necessity. The targeted medical review threshold amount for 2022 is \$3000.

You may be asked to sign an Advance Beneficiary Notice of Non-coverage (ABN) so that you are aware of the situation and that Medicare may determine that those services are not medically necessary. The ABN lets you choose whether or not you want the therapy services. If you choose to get the medically unnecessary services, you agree to pay for them.

Disclaimer

We do not support the limitations that congress has imposed on the benefits that you receive under Medicare. We will work with you to ensure that you receive the medically necessary care that you need. The American Physical Therapy Association (APTA) is working hard to repeal the cap. Please contact your US Senators and Representatives to urge them to remove this unfair and arbitrary cap on rehabilitation services.

If you have more questions, please contact 1-800-MEDICARE (633-4227).

Health Insurance Benefits/Coverage/Authorizations DISCLAIMER

As a courtesy OSI Physical Therapy will attempt to verify your health insurance benefits and/or necessary authorizations for you. Please be aware, this is only “A **QUOTE** of Benefits/Authorizations.” **We cannot guarantee payment to verify that definite eligibility of benefits conveyed to us to you by your carrier will be accurate or complete. Payments of benefits are subject to all terms, conditions, and exclusions of the member’s contract at the time of service.**

Your health insurance company will only pay for services that it determines to be “reasonable and necessary.” Our office will make every effort to bill your insurance in a timely manner. If your carrier determines that a particular service is not reasonable and necessary, or that a particular service is not covered under your plan, your insurer will deny payment for that service and it will become your responsibility.

We recommend you to be familiar with and verify your benefits with your insurance company prior to your services at OSI Physical Therapy. Please be aware, that even then, it is still not a guarantee of benefits or payment.

Thank You
